DETAILED ACTION

Claims 1-3 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited. In claim 1 the reference to fig. 1 cannot be relied upon.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 3 is rejected under 35 U.S.C. 102(e) as being anticipated by Yuan 6,523,830.

Unlike claim 1, claim 3 does not call for the combination of the embedded card on the playing surface with the modified deck that removes the face cards. Yuan pertains to point games in general. He shows that such known point games can have a target value of both ten and twentyone. As such Yuan is considered to show a sum of twentyone which meets the limitations of the claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Eaton, Lee and Miller show modified decks. Malcolm, Cauda, Stavinsky, Timpano, Duhamel and Walker show wagering games.
